PROFILE

Automation Test Engineer with 9+ years of experience. Developed and enhanced automation frameworks and scripts for cloud-based enterprise Web, Desktop, API applications using tools like Selenium, CodeceptJS, TestStack White, CodedUI, JMeter, Rest Assured with languages Python, Java, C# dotnet, JavaScript.

AUTOMATION TOOLS

- Selenium WebDriver
- Rest Assured
- CodeceptJS
- Test Stack White
- Coded UI
- Appium
- JMeter

PROGRAMMING LANGUAGES

- Python
- C# dotnet
- Java
- JavaScript

OTHER TOOLS

AWS, Jenkins, JIRA, TestRail, GIT, NUnit, Junit, TestNG, SQL, Postman, Octopus Deploy, PyTest, Gherkin, Cucumber, Browser Stack, Lambda Test, Bitbucket, Linux, Windows, MacOS, Swagger

EDUCATION

Narsee Monjee Institute of Management Studies (NMIMS)

A Grade, Feb 2017 to May 2019

Executive MBA, Finance and Operations

Sreenidhi Institute of Science and Technology (SNIST, JNTU University)

A Grade, 76%, June 2008 to May 2012

Bachelor of Technology, Electronics and Computer Engineering (ECM)

LANGUAGES

- English
- Hindi
- Telugu

KEY ROLES PLAYED

- Built Hybrid UI and API integrated Automation Frameworks
- Reduced test execution time with custom execution strategies
- Built API based load test suite using JMeter
- Integrated AWS S3, Secrets Manager for test data and config management
- CI/CD integration with customized Jenkins Jobs for automation tests
- Collaborated with CTO for implementing test automation from scratch
- Integrated custom HTML and Video logs for test reports
- 3rd party tools and APIs integration for test automation frameworks
- Perform POCs to check automation compatibility with product

WORK EXPERIENCE

Senior Software Engineer in Test, Zenoti, Hyderabad

Dec2020-Present

Part of Test Automation COE team, responsible for maintaining and developing test automation solutions across the organization. Maintained and Enhanced existing in-house JSON based code less automation tools using Python and dotnet based solutions to support API, Web, Mobile and Database Automation testing. Secured test configuration management by integration framework config management with AWS Secrets Manager. Integrated customized Extent reports for test results reporting. Developed support for test execution rerun for nightly runs.

Principal QA Automation Engineer, Innominds, Hyderabad

Apr 2018-Dec 2020

Worked with start up projects as client for providing QA functional and automation testing solutions. Built and managed API regression automation suites with 99%+ execution efficiency. Streamlined Automation backlog and defect management in sprints. CI/CD Jenkins jobs integrations. Build JMeter load test automation suite. Implemented dynamic test data creation and clean up strategies.

Senior Test Automation Engineer, CDK Global, Hyderabad

Jul 2015-Apr 2018

Build test automation framework and for API and Desktop based product testing using C# dotnet and Test Stack White. Migrated HP UFT based test scripts to C# dotnet automation framework. Built custom Jenkins jobs to support CI/CD integration along with JIRA integration and dynamic results reporting. Executed Regression, Smoke suites, analyzed failures and reported results to stake holders.

Test Automation Engineer, Infosys Ltd, Hyderabad

Mar 2013-Jul 2015

Develop C# CodedUI based test automation scripts. Execution of regression suite and analyzing failures. Performing Automation feasibility analysis on functional tests. Automation tests backlog creation. Migration of CodedUI Test Automation scripts and framework to Selenium WebDriver. Coordinating with cross teams understand functional scope, RCA and defect resolution.
