📍 Hyderabad, India

PROFESSIONAL SUMMARY

- Experienced Automation Test Engineer with a proven track record of **12+ years** in developing and enhancing **automation frameworks and scripts** for enterprise **Web, API, Cloud, and Desktop** applications using multiple tools & programming languages.
- Proficient in utilizing programming languages such as **Python, Typescript, C# dotnet,** and **Java** to implement effective test automation solutions using **Playwright, Selenium,** CodeceptJS, TestStack White, CodedUI, **JMeter,** and **REST** Assured.
- Experience in automation of functional, regression, UI, API, Performance, A/B, Screenshots, Localization & CrossBrowser Testing using code-based, in-house, and keyword-driven frameworks.
- Strong expertise in ensuring high-quality software delivery with comprehensive functional & automation testing.

KEY ROLES PLAYED

- Developed hybrid automation frameworks integrating Selenium, API, and database technologies
- Optimized test execution times by 50%+ by employing multiple custom strategies
- Created API load test suites using JMeter to simulate up to 5X load conditions
- Utilized AWS services (API Gateway, CloudFront, EC2, S3, SecretsManager) for secure test configurations
- Built enterprise-level nightly environment jobs to onboard and connect cross-teams
- Enhanced test result reporting with Allure, Extent, and in-house custom reports
- Implemented CI/CD pipelines with Jenkins for continuous integration and deployment
- Collaborated with CTOs to plan and execute test automation initiatives, including migrating legacy suites
- Experience building keyword-driven cross-technology automation framework to build and execute E2E tests for enterprise
- Integrated and build wrappers around 3rd-party tools (TestRail, JIRA, BrowserStack, LambdaTest, HPALM, Slack) for streamlined test management and results reporting
- Managed test data and cleanup processes for efficient automation
- Led proof-of-concept projects to address automation challenges and drive improvements
- Designed and executed comprehensive test plans and cases based on specifications
- Participated in functional and technical reviews in Agile environments
- Conducted functional, system & regression testing, including non-functional testing (load, cross-browser, localization)

PROFESSIONAL EXPERIENCE

CyberArk, Hyderabad	Senior SDET	September 2023 to Current
ThoughtSpot, Hyderabad	Lead SDET	May 2022 to September 2023
Zenoti, Hyderabad	Senior SDET	December 2020 to May 2022
Innominds, Hyderabad	Lead SDET	April 2018 to December 2020
CDK Global, Hyderabad	Senior SDET	July 2015 to April 2018
Infosys Ltd, Hyderabad	SDET	March 2013to July 2015

EDUCATION

Narsee Monjee Institute of Management Studies, Hyderabad
Executive MBA - Finance & Operations
May 2019
Grade - A

SreeNidhi Institute of Science & Technology, Hyderabad
B.Tech - Electronics and Computer Engineering
May 2012
Grade - A

TECHNICAL SKILLS

- Python, C# dotnet, Java, Typescript
- Playwright, Selenium
- Nunit, Pytest, TestNG, Cucumber
- RestAssured, Postman, JMeter
- Jenkins
- JIRA, XRa, TestRail
- GIT

RECOGNITIONS

- Super10 QA - Innominds April 2019
- Pat On Back - CDK November 2016
- Hackathon Winner - CDK Oct 2015
- Star Award - Infosys May 2015
