KEY ROLES PLAYED

- Built Hybrid UI, API and Database integrated Automation Test Frameworks
- Reduce and optimize test execution time with custom execution strategies
- Built API based load test suite using JMeter to support upto 5X load
- Secured test data and configurations utilizing AWS S3, Secrets Manager
- Enhance test result reporting using Allure, Extent and custom inhouse reports
- CICD integration with customized Jenkins Jobs for automation tests
- Collaborated with CTOs for implementing test automation from scratch
- 3rd party integrations with TestRail, JIRA, BrowserStack, LambdaTest, HPALM
- Implemented dynamic test data creation and clean up strategies.
- Perform POCs to check automation compatibility with the product

AUTOMATION TOOLS

- PlayWright, Selenium WebDriver, RestAssured, CodeceptJS, TestStack White, CodedUI, Appium, JMeter

WORK EXPERIENCE

Senior Software Engineer in Test, Zenoti, Hyderabad   Dec2020-May2022
Part of Test Automation COE team. Maintained and Enhanced existing in-house keyword driven code less automation frameworks built with Python and dotnet. Worked with API, Web, MobIle and Database Automation testing. Integrated Extent reports with inhouse custom frameworks for test results reporting.

Principal QA Automation Engineer, Innominds, Hyderabad Apr 2018-Dec 2020
Worked with start up projects as client for providing QA functional and automation testing solutions. Built and managed API regression automation suites with 99%+ execution efficiency. Streamlined Automation backlog and defect management in sprints.

Senior Test Automation Engineer, CDK Global, Hyderabad Jul 2015-Apr 2018
Build test automation framework for API and Desktop product testing using C# dotnet and Test Stack White. Migrated HP UFT based test scripts to C# dotnet automation framework. Regression Test Execution and results reporting.

Test Automation Engineer, Infosys Ltd, Hyderabad   Mar 2013-Jul 2015
Migration of CodedUI Test Automation scripts and framework to Selenium Webdriver. Test Execution, Failure Analysis and Results Reporting. Performing Automation feasibility analysis on functional tests.
